

## Fortinet Security Professional FCP

- Duration: 80 Hours
- Language: Portuguese/ English
- Level: Beginner

No Network Security Professional os alunos aprendem a configurar, instalar e gerir a configuração, assim como, a monitorizar as operações do dia-a-dia de um dispositivo FortiGate para suportar políticas de segurança de rede específicas.

A formação é complementada com conhecimentos necessários para implementar a gestão centralizada da plataforma Fortinet através do produto FortiManager.

A formação do Professional Network Security é composto por duas certificações: FortiGate Administrator e FortiManager Administrator..
